From the Editor's Desk

Hi everyone.

So did you survive our cold snap? It would appear that winter didn't want to give up just yet.

We were camping at Roosevelt Lake for the weekend and having a really good time. That is until early (very early) Sunday morning when the rain started and the temperature plummeted. We decided to head back to the valley in between the storms and it was a good thing we did. They were predicting snow at Roosevelt Sunday night and into Monday morning. As it was, we encountered snow on our way home. But it was still a fun trip.

Don't forget the April Hamfest at DeVry on April 14. This year's event should be a big one since the hamfest in Scottsdale was canceled. There will be door prizes, main prizes, refreshments and lots of vendors and tailgaters at the hamfest, so don't miss out.

The organizers have made arrangements to hold VE testing in the school library this year. Testing will start at 9:00 A.M. and wrap up at 11:00 A.M.. So if you or someone you know would like to take a test, get there by 9:00 A.M. to get your seat.

ARCA will hold it's Spring meeting at Denny's at 9030 N Black Canyon Highway (it's on the north west corner of I-17 and W Dunlap Ave.) immediately following the hamfest - approximately 1:00 P.M.. Join us for lunch and an update on what's happening throughout the state.

There is a general license class being held in Prescott by Roger Nash, KD5VRW and the Yavapai Amateur Radio Club on April 14 and 21 from 8:00 A.M. to 5:00 P.M.. If you are interested, please contact classes@w7yrc.org to register and obtain additional information.

The ARRL has a new video out called "The DIY Magic of Amateur Radio." The ARRL Public Relations Department has produced the video as part of their efforts to promote Amateur Radio to the Do It Yourself/Maker community. You can watch the video on the ARRL web site at <http://www.arrl.org/diy>

Be sure to check out the Event Calendar on page 7 for the upcoming hamfests in Arizona and make plans to attend at least one of them. Hope to see many of you at DeVry.

Until next time - have a wonderful month!

73,

Chris, N7PVL

ADAW

License Testing Information

When you are ready to take an exam for an Amateur Radio license, there are Volunteer Examiners available to assist you. Each Applicant will need to bring a picture ID (some test sessions require two forms of identification). If you are upgrading your class of license, be sure to bring the original (and a copy) of your license and/or Certificate of Successful Completion of Examination (C.S.C.E.). There may be a fee required.

PLEASE NOTE: Dates, times, or locations may change. Call test session contact to confirm information. Walk-ins are permitted unless otherwise specified.

SCOTTSDALE AMATEUR RADIO CLUB, INC.

Club Station: WA7APE
Club Repeaters: 147.78/.18 & 445.00/440.00

Hi Guys,

At the March General Club Meeting we had a contest for home brewing. This was an idea sponsored by Paul Finell, W7EFQ. We had eight entrants in the contest. All of the entrants presented their projects explaining what difficulties they encountered and what they learned from the experience. All of the projects were different and the presentations were really interesting. The picture below shows the entrants holding their projects. They were from left to right, Rob Robb, KB7ZAB, John Clark, K2AOP, Arturo Fonda, WB7ATA, Ed Nickerson, WU7S, Ray Carli, W7GNE, Alan Jensen, KE7FSD, Judy Jensen, KE7IXI, and Gilbert Zumwalt, KF7POS. The selection of the winners was up to judges Paul Finell and David Yee. For first place the prize was \$50 and for second place the prize was \$20. The decision was difficult but they rose above the challenge and for first place they selected Alan Jensen, KE7FSD, for his radio receiver and for second place, Arturo Fonda, WB7ATA, for his unique UHF/VHF portable antenna. Great job to the winners and to all entrants.

After a short coffee break, the club enjoyed a presentation by Chris Radicke, N7TWW, on a new digital radio system that utilizes a much narrower band width than current FM units. This is now being used in commercial applications and may be the way ham radio will be going in the future. This is something to think about. The program was very technical but well enjoyed by all present.

Next month the program will be by Bob Johnsen, K7TR and Larry Foster, KC0JON, on their most recent trip to Honduras. They provide radio communication for humanitarian aid workers in this South American Country. This will be a great program for anyone who likes DX peditions like I do. I am looking forward to this program.

We have recently had some solar flares and I have been wondering if anyone noticed any difference in the HF bands. When I have checked, they seem the same as usual. There was not much going on. I missed the contests in March and now I am looking forward to April. The bands should be getting better soon. I hope.

The vacation and camping season is just around the corner and I know a lot of you guys out there are making some terrific plans. Take some pictures of that new ham shack equipment or new tower. When camping it is always fun to "play radio" whenever you can. Tell us about it. Keep in mind we would all love to hear about your adventures. Let me know about your trips or whatever, and we will share them with everyone.

Enjoy the recreation season.

The club has a weekly net on 147.18 with a PL of 162.2 or on 440.00 with a PL of 100. The net is 7:00 P.M. on Tuesday evening. It is a great chance for you to try out your 2-meter or 440 radio. So join us on Tuesday evenings for the fun.

Well, that is all I have for now. Until next month, keep on hamming, be well and enjoy life

73 Ed WU7S

enickerson427@aol.com

L to R: Rob Robb KB7ZAB, John Clark K2AOP, Arturo Fonda WB7ATA, Ed Nickerson WU7S, Ray Carli W7GNE, Alan Jensen KE7FSD, Judy Jensen KE7IXI, and Gilbert Zumwalt KF7POS.

ADAW

SARC CONSTANTS:

SARC is a 501 (c)-3 club. That means all donations are fully tax deductible. Contact Paul Finnell, W7EFQ at 602.741.6563 for information on estate donations and equipment pick-up.

For membership information, call Gerald Jacques, KE7GYM at 480.239.8679. Please send address change requests to Gerald no later than the 7th of the month in which you would like the change to occur.

To field check QSL cards for most ARRL awards, call Ed Nickerson, WU7S at 480.949.5162.

I offer you a challenge! Among my many treasures, I recently found my first Arizona ham license plate, WA7EDI, licensed in 1966. Pack rat that I am, I don't often throw away such treasures. Take a look at the photo of that treasure. My challenge to you? Show me your Arizona ham plate dated earlier than mine (or a photo showing that plate), and the person showing the earliest dated Arizona ham plate before mine will receive two Harkins movie tickets. Deadline is April 10.

We still have pleasant memories of Yuma. It was a very special convention. I know you've heard from our editor about the great barbecue, the large number of vendors, the tech sessions, the wonderful prizes including exceptionally beautiful baskets made by the committee members. The chance to meet with friends again is always a bright spot of the Yuma convention. However, if you were to ask Verdamae Cutitta what she liked best about the Yuma convention, she would gladly let you know that on Saturday morning at the VE test session she earned the privilege to become KF7UJB. Now she's not only an AARC member, but a REAL amateur radio operator. We can't wait until we get her help on Field Day.

My apologies for a very serious error I made in last month's column. I mistakenly told you that Dick Baum, NS7A, is an alumnus of Michigan State University. His alma mater is actually MIT, Massachusetts Institute of Technology. I'm sure you realized that no MSU grad would wear a U of M jacket, even if it were a bargain at a Flagstaff department store on a freezing Flagstaff day! Sorry, Dick.

At our March meeting of the AARC we viewed the video tour of W1AW. If you have not had the chance to see the W1AW station in person, you might enjoy seeing the video, which is available on the internet at www.arrl.org. At the March meeting we also made further plans for the April Hamfest at DeVry which is scheduled for Saturday, April 14, 2012. The hamfest will be presented by the Arizona Amateur Radio Club and the Amateur Radio Council of Arizona. Mark your calendar for this event.

73,
Lori, WA7EDI
602-955-7517
cripps@cybertrails.com

*Verdamae Cutitta proudly displays her CSCE.
She is now KF7UJB*

Lori, WA7EDI with the raffle prize she won at Yuma

Greetings,

So, how did you celebrate the Arizona Centennial? Did you go out to dinner? Did you go to one of the events scheduled in downtown Phoenix? Maybe you drove to one of the outlying cities or even to somewhere farther away. There were surely enough events to go to and participate. Storytelling, rodeos, bar-b-ques, re-enactments, whatever you did, I hope you had fun.

Did you have enough time to drop in at the radio station set up on the campus of Thunderbird School of Global Management? You missed a good time if you didn't. Early Saturday morning operators were setting up their equipment and antennas. By about 9:00 A.M. we were on the air. Walt N7GDP had procured a special event call sign. Coffee and refreshments were available.

The school cafeteria was open and available for breakfast and lunch both days. If you haven't eaten there, you need to give it a chance. I have eaten there several times and it has always been great and the cost is reasonable. Try one of their hamburgers and French fries. Superb!

Walt N7GDP, Chuck WA6AYS, Steve K7LSQ, Mike K7DD, Chris K6OZY, and Al AE7GM were there Saturday and Sunday. Angel KF7SLO, Andy K3WYC, Israel AE7ND, Jack KD7RCJ and Rick D7TEJ were able to come Sunday. Poor Israel looked so tired when he showed up, he had been working all day. Angel brought some of his family. He's trying to cultivate an interest in radio in his family.

Two guests showed up, Jim and Hank. Hope they get licensed, if they aren't already and join the club.

I could only go on Sunday. I made my first DX contact. I was listening to two men talking between Japan and British Columbia. Eventually I connected with the man from B.C. How exciting!

Everyone was so happy and excited that well over 300 contacts were made that weekend. They were happy and excited until the next meeting of the club, when a bombshell was dropped. Ruby KF4NI produced a log book with well over 400 contacts she had made working from home all by herself!!! Wow, congratulation, Ruby!

See you at the next meeting? Attendance had been wonderful! Thanks for coming.

CHAPTER 16

BARRY M. GOLDWATER ARIZONA CHAPTER

The QCWA is getting a new General Manager. He's Jim LaPorta, N1CC, of Mabank, TX. The closing date for the Framingham Office for all intents and purposes was March 2nd. While there will be a lot of behind the scenes activity taking place after that, there will not be much in the way of any QCWA items being processed for a few weeks (memberships, merchandise orders, awards, etc.). Any requests for services that will not be accommodated in Framingham will be forwarded to Mabank and processed after Jim has that office up and running, sometime around March 26th. This date is totally dependent on the shipper and none of them will commit to a delivery date. Everything is supposed to arrive on March 23, but again, no guarantees! In the meantime, check out our new GM and get all his contact information at www.qcwa.org/n1cc.htm

73,
